

Agarose gel electrophoresis analysis of CK19 mRNA

From right to left:

lane 1: 20 bp DNA ladder

lane 2: mRNA from controlled MCF-7 cells

lane 3: mRNA from captured MCF-7 cells

Agarose gel electrophoresis analysis of EGFR mRNA

From right to left:

lane 1: 20 bp DNA ladder

lane 2: mRNA from controlled MCF-7 cells

lane 3: mRNA from captured MCF-7 cells
