

## **MyTISSE Tesing session**

Welcome! You will participate in the new experience “MyTISSE”, a research prototype developed by Manuele Veggi as Master Thesis project in “Interaction Media Design” under the supervision of Prof Pescarin at the University of Bologna. It is aimed at analyzing the relationship between sense of care and color perception, focusing on a canvas by Matisse.

To start, we invite you to carefully read the following information on your participation in the experience (Part 1) and the privacy policy (Part 2).

### **Part 1 – Participation in the MyTISSE experience**

The experience involves the use of a tablet and interactive pen, which will be given at the beginning of the testing session. It may also require you to communicate verbally with the other participants and you will be asked to follow the indications provided by a guide. The experience also foresees the filling in of a module on Google Form.

### **Part 2 - Privacy Information Sheet**

The following provisions are made in accordance with the EU General Data Protection Regulation 2016/679 (GDPR). The Data Controllers are Prof. Sofia Pescarin and Manuele Veggi. The latter is also point of contact of the experience MyTISSE (email address: [manuele.veggi@studio.unibo.it](mailto:manuele.veggi@studio.unibo.it)).

The legal basis of the processing is your express consent given before participation in the experience. You may revoke your consent at any time by sending an email to the point of contact. Your participation in this research is entirely voluntary and your refusal to participate will have no implications.

The processing will include only personal data that are strictly necessary for the research purposes, i.e., common data such as personal data, contact data (e-mail address), navigation data, and data resulting from audio/video recordings. The purpose of data processing is to collect information for conducting research on the design of virtual experiences for cultural heritage, through the following methods:

1. observation and audio/video recording during the session at the Università di Bologna;
2. administration of a questionnaire after the session at the Università di Bologna;
3. semi-structured interviews of participants after the session at the Università di Bologna;
4. email contact for a possible follow-up on the experience.

For more information on the research, you can contact the point of contact Manuele Veggi.

The processing will be carried out for 2 years after data collection in an automated and/or manual form, using all the necessary measures to ensure the confidentiality of personal data and avoid undue access by unauthorized parties, in compliance with applicable regulations.

The dissemination of data will take place only in an aggregate and anonymous form (i.e., in ways that do not allow the identification of respondents) for publications in scientific journals, reports, presentations at conferences and congresses, and educational activities. At any time and until the deletion of the data, you have the right to request: access to your data; obtain the rectification and cancellation of data; object to the processing at any time when there is other legal ground for the

processing than consent; obtain the limitation of the processing; obtain data portability; propose a complaint to a supervisory authority. To exercise one or more of these rights, you can address a request to the Controller's point of contact.

**I, the undersigned, confirm that:**

- I have read the MyTISSE procedures and the information on the use of the devices and I assume any responsibility that may arise from the participation in the experience, releasing the organizers from any civil and criminal liability as a result of injuries caused to myself or third parties and illnesses occurring during the entire duration of the experience, or consequent to the use of the facilities / devices;
- I have read and understood the information contained in the privacy sheet, I have been able to ask any necessary questions, and I have received satisfactory answers;
- I consent to the processing of my data for the purposes, in the forms and modalities described in the privacy information sheet and I authorize the processing and use of audio/video materials acquired during the participation in the MyTISSE experience for scientific purposes and the management, development, and dissemination of research activities and results.
