

Expected Outputs

The following outputs were generated using “Measuring non-healthcare occupational exposure to SARS-CoV-2 across occupational groups in the United States.”

Level One Output

1. Super-Major Occupational Groups

→ “Non-healthcare occupational exposure to SARS-CoV-2 across super-major occupational groups in the United States”

Level Two Output

1. Major Occupational Groups

→ “Non-healthcare occupational exposure to SARS-CoV-2 across major occupational groups in the United States”

Level Three Outputs

1. Management, Business, Science, and Arts Occupations

1.1. Management Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across management occupations in the United States”

1.2. Business and Financial Operations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across business and financial operations occupations in the United States”

1.3. Computer and Mathematical Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across computer and mathematical occupations in the United States”

1.4. Architecture and Engineering Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across architecture and engineering occupations in the United States”

1.5. Life, Physical, and Social Science Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across life, physical, and social science occupations in the United States”

1.6. Community and Social Service Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across community and social service occupations in the United States”

1.7. Legal Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across legal occupations in the United States”

1.8. Education, Training, and Library Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across education, training, and library occupations in the United States”

1.9. Arts, Design, Entertainment, Sports, and Media Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across arts, design, entertainment, sports, and media occupations in the United States”

2. Service Occupations

2.1. Protective Service Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across protective service occupations in the United States”

2.2. Food Preparation and Serving Related Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across food preparation and serving related occupations in the United States”

2.3. Building and Grounds Cleaning and Maintenance Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across building and grounds cleaning and maintenance occupations in the United States”

2.4. Personal Care and Service Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across personal care and service occupations in the United States”

3. Sales and Office Occupations

3.1. Sales and Related Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across sales and related occupations in the United States”

3.2. Office and Administrative Support Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across office and administrative support occupations in the United States”

4. Natural Resources, Construction, and Maintenance Occupations

4.1. Farming, Fishing, and Forestry Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across farming, fishing, and forestry occupations in the United States”

4.2. Construction and Extraction Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across construction and extraction occupations in the United States”

4.3. Installation, Maintenance, and Repair Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across installation, maintenance, and repair occupations in the United States”

5. Production, Transportation, and Material Moving Occupations

5.1. Production Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across production occupations in the United States”

5.2. Transportation and Material Moving Occupations

→ “Non-healthcare occupational exposure to SARS-CoV-2 across transportation and material moving occupations in the United States”
